

## Detox Contour Wrap Frequently Asked Questions

### What is the Detox Contour Wrap?

The Detox Contour Wrap is an all-natural, effective way to achieve a guaranteed\* centimetre reduction, detoxify the body, cleanse the skin, and leave you feeling totally rejuvenated with a wonderfully smooth and silkier skin texture. The Detox Contour Wrap is a process that involves wrapping the body with special contour wraps that have been soaked in an all-natural clay solution. (\*see guarantee below)

### How does it work?

Once the wraps that have been soaked in the warm solution are applied to the body, the effect is that of a giant poultice. As the toxins are drawn out through the pores, the skin tissue is compressed and compacted and the skin regains elasticity by being detoxified thereby creating a smoother and firmer muscle base over which the soft tissue lies. It is important to note that this wrapping process is NOT dehydrative, therefore, weight loss, through water loss, is extremely minimal this means you will NOT regain centimetres lost by drinking a glass of water.

### What are Toxins?

Toxins are waste by products that are stored, and take up space, in the fluid between the fat cells. They are called interstitial fluids which simply means 'between the cells.' Toxic accumulation is due to age, illness, medication, stress, improper diet, smoking, drinking, lack of exercise and weight loss (which due to fat breakdown is very toxic). Women, additionally have toxic build up due to hormonal changes and pregnancy. Toxic accumulation inhibits the elasticin which holds and maintains the shape of the soft tissue and skin and results in a discouraging sagging condition.

### Is the centimetre loss really guaranteed?

Yes! With Detox Contour Wrap you're guaranteed\* to lose at least 15 centimetres in your first wrap or you pay nothing. Furthermore the centimetres are guaranteed to stay off for 30 days or you are entitled to be wrapped again absolutely free, so you really have nothing to lose, except for the centimetres of course. (\*see guarantee below)

### Will I put the centimetres back on as soon as I drink water?

No. Unlike other centimetre loss treatments, UCW doesn't rely on dehydration to achieve its remarkable centimetre loss. In fact you're encouraged to drink plenty of water after your treatment to continue the detox process and help you lose further centimetres after you've left the salon.

### Can I be wrapped more than once?

Yes, to achieve maximum centimetre loss from Detox Contour Wrap a course of three to five treatments is recommended and should be taken 7-10 days apart. Centimetre loss is cumulative and the average loss over the full course is 20-25 centimetres per wrap.

**How long will the results last?**

The initial 15 centimetre loss is guaranteed\* to last for 30 days but results can last for much longer depending on following the after wrap instructions. And of course you can achieve even greater centimetre loss by having further wraps. A course of three to five treatments is recommended in order to achieve maximum centimetre loss. (\*see guarantee below)

**Will I lose weight with Detox Contour Wrap?**

As toxins rather than fat are removed during the treatment process, any weight loss will be negligible. Detox Contour Wrap is the guaranteed centimetre loss treatment that shapes and tones your body so although you don't lose weight you can still drop a complete dress size, in just 2 hours.

**Will I just lose centimetres because I'm sweating?**

No. The centimetre loss you'll experience with Detox Contour Wrap is a result of the special clay formula and special wrapping techniques used during the treatment. Warm clay and bandages are used in the wrapping process to make the application soothing and create the ideal effective temperature for the clay to work but not to induce sweating and dehydrating, unlike many other wrap treatments.

**What will the Detox Contour Wrap do for my skin?**

The wrap works to cleanse and detoxify the skin, and our clients tell us their skin feels very soft and smooth and also 'tighter' after the wrap. Many clients enjoy the wrap purely for the detoxification benefits. Clients with skin problems such as psoriasis and eczema say a real difference and improvement can be seen and felt after the wrap.

**Will the Detox Contour Wrap help Cellulite?**

Cellulite is a well-known word in society today that is more specifically termed as "toxified fatty deposits". Because "cellulite" is an abnormal skin condition causing a hardening of the connective tissue that holds the skin firm, the elimination of cellulite through regular diet and exercise is usually not enough. The Detox Contour Wrap can assist in the elimination of excessive accumulations of toxins and fluids that prevent the correction of this abnormal condition. Cellulite in the body is formed gradually over a long period of time, so it cannot disappear completely after only one Contour Wrap. A course of three to five wraps a week to 10 days apart is recommended.

## OUR DOUBLE GUARANTEE

### INITIAL WRAP

"We guarantee your first Detox Contour Wrap will firm, tone and reduce a minimum of 15cm / 6 inches from your body measurements or no charge to you"

### 30 DAY GUARANTEE

*All clients will receive a money back guarantee that cms taken off on the initial wrap will STAY OFF! This is conditional only on you following the "After Wrap Instruction" and not gaining any weight, (and thereby new cms), following the weight and measurements of your initial body wrap. Thirty (30) days after your initial wrap, if your weight has remained the same, or less, your total body measurements are not at least 15cm less than your original measurements, we will reduce any returned cms with an additional Detox Contour Wrap ABSOLUTELY FREE!! If any returned cms are still not reduced to the total body measurements of your initial wrap, all monies for your initial wrap will be totally refunded. To qualify for this guarantee, the measuring must be done at our facility, on the 30<sup>th</sup> day after your initial wrap.  
Above guarantees only apply to clients having a full Detox Contour Wrap*
